

1 ABSTRACT OF THE DISCLOSURE

2 Disclosed is an electronic real property viewing system for providing  
3 virtual tours of real property units via a public communications network  
4 such as the internet.. The electronic property viewing system includes a  
5 system for affiliates to create their own virtual tours in real time by  
6 uploading photographs into a template, resulting in both movable and still  
7 photographs with accompanying data sets. Another embodiment of this  
8 invention involves the exchange of the creation and/or maintenance of such  
9 virtual tour available on a public communications network for occupation  
10 time units in the real property units.
